EDGE GLUER, MODEL KBA 125 (5")

for clean Edge Gluing of Cardboard, Leather and Paper

KBA edge gluers are used primarily by:

- paper converters and box makers e.g. for small runs of folding boxes, difficult or outside folding boxes
- leather goods manufacturer for gluing unscarfed pieces of leather and woolen paper
- printers and bookbinders, e.g. for pamphlet envelopes and edge gluing of labels

KBA edge gluers can also be used for full surface gluing of sheets and strips up to the width of the glue roll.

For ammonia-containing latex, these machines are supplied with a chrome nickel steel roll, adjustable scraper of stainless steel and a special tin-plated glue pan (extra charge; extended delivery time owing to special manufacture).

Furthermore, we manufacture gluers of all types from 150 mm to 1500 mm (6, to 60") width for full surface, strip, spot and edge gluing; with and without conveyor, for hot and cold glues, for paper, cardboard, leather, plastics etc.
