## GLUEING MACHINE UAM 1120/1400

for pattern-, edge- and strip glueing of paper  
and board etc.

## Glueing machine UAM 1120/1400

Working width:	1120 mm	1400 mm	
Sheet size:	Pattern glueing 40 x 100 mm up to 1120 x 1000 mm Edge- and strip glueing 20 x 100 mm up to 1120 mm wide x unlimited length	up to 1400 x 1000 mm  up to 1400 mm x unlimited length	
Paperweight:	from about 50 gsm		
Board thickness:	up to 20 mm when pattern glueing up to 20 mm with edge- and strip glueing		
Output:	Pattern glueing Board           7 - 60 sheets per minute Paper           7 - 40 sheets per minute  Edge- and strip glueing up to 30 meters per minute		
Glue:	All water-soluble adhesives, hot glue and Latex (special glue rolls)		
Cleaning:	about 5 minutes		
Power supply:	Space requirements	Weight	Packing
1120: 3/4 HP 1400: 3/4 HP	1120: about 1600 x 4500 mm 1400: about 1900 x 4500 mm	1120: net. about 900 kg gross about 1150 kg	4.5 cb.mtr.
Supply possible with short or normal delivery conveyor		1400: net about 1200 kg gross about 1450 kg	5,5 cb.mtr.

Our manufacturing programme also includes:

- Label-glueing machines up to 500 mm with automatic feeder and variable drive
- Glueing machines with bottom glue unit up to 1200 mm wide for cold, hot glue and Latex for full service and strip glueing for paper, board etc.
- Edge glueing machines up to 220 mm wide for cold glue, hot glue, Latex and solvent based glues
- Glue machines with overhead glue unit, delivery conveyor, automatic sheet feeder with glue circulation
- unit up to 1500 mm wide for cold glue, hot glue and Latex
- Nip presses up to 1100 mm wide with automatic lay boy
- Automatic sheet laminators
- Press sections
- Packaging systems for carton glueing machines
