

IMG - "Innovative Machinery Group"
new multinational enterprise within corrugated conversion
-to be best in class

IMG was presented at the Fefco

IMG AG is a German based company with its head office and group management at Klett in Remscheid.

IMG comprises of established companies responsible for different markets;

IMG-Klett (Europe, Africa, Australia)

IMG-Brausse (America)

IMG-Dong Fang (Asia)

IMG has today 9 own production plants with 15 sales and service facilities and around 450 engaged staff members.

**Why IMG?**

IMG has been formed from individually strong positions which now together have been greatly reinforced.

In order to succeed on today's competitive market, you need to invest a lot in your own basic research and development and then convert this into well designed and well working machines.

You need a broad competence in a wide machine programme including also quality, security, service and environment.

IMG is where the customers are

Many of our customers are part of multinationals spread all over the world and we need to be there as well.

In order to have enough strength and endurance to remain on the market with a production of competitive machines you need to be strong.

Strong and credible to be the first hand choice for our customers.

You need to be - **best in class.**

Benefit

The machine cost need to be in the right relation to the benefit you get out of it.

Many excellent machines - from the same source - at low prices
