## IMG Klett presents new machines - again! Come and see when visiting the DRUPA exhibition!

### Eurostar - bottom print with vacuum transport

- *Eurostar 1636* (H 1600 x W 3600) - with vacuum transport through the machine, dual slotter and rotary die cutter followed by a stacker - now at Weidner Karton, Stuttgart.
- *Eurostar 1636* - with two colours, dual slotter, rotary die cutter plus stripper stacker - to be seen just outside Cologne.
- *Eurostar 1224* - with three colours and direct transfer to a *Cobra* flat bed die cutter with bundle breaker/separator - at Wolff in Germany.
- *Eurostar 1228* - with two colours, dual slotter and stacker - soon on its way to Ireland.
- *Eurostar 1228* - complete flexo folder gluer with four colours, dual slotter, rotary die cutter, vacuum fold station, bundle stacker- in assembly.

### Topstar - budget machines with top print

- *IMG ST 1224* - flexo folder gluer with Sun feed and two colour top print and single slotter.
  - *IMG ST 1228* - printer slotter with three colours and stacker.
- See them at IMG Klett!

- ***Kleverliner 718*** - now with integrated stripping station - the flexo folder gluer which combines the best from flexo folders with a traditional folder gluer - resulting in the ability to run more complicated shapes than ever before - see it at Sausenheim in Germany.

**Box King separate printing, 2,5 x 2,8 m, faster and more accurate- customer SCA**

Sun Extendo Feed with four rows of rolls

All print units can have chambered doctor blade system and eg. IR-dryers.  
Rotary PU-cover grinding unit.

IMG ST 1228 with top print and vacuum fold station with down fold of flaps.
