

TECHNICAL DETAILS

min. sheet size	200 x 280 mm	8 x 11"
max. sheet size	1100/1400 x 1650 mm	56 x 65"
min. weight of base material	approx. 250 gsm	approx. 12 points
max. thickness of base material	approx. 12 mm	approx. 7/16"
min. weight of prints	approx. 80 gsm	approx. 60 pounds
max. weight of prints	approx. 800 gsm	approx. 38 points
laminating accuracy	approx. ± 0,25 mm	approx. ± 0.01"
output	up to 2800 sheets/hour	
power supply	5,8 kW, 220/380 volts DC, 50/60 cycles	
compressed air requirements	6 bar	90 psi

Our product range also includes:

- Label bench glueing machines up to 500 mm wide with automatic feeder and variable speed drive
- Glueing machines with bottom glue application up to 1200 mm wide for cold and hot glue and Latex, for full surface and strip glueing of paper, board, etc.
- Edge Gluers up to 240 mm wide for cold glue and hot glue and Latex
- Glueing machines with overhead glue application, transfer conveyor, automatic sheet feeder and glue circulation unit, up to 1500 mm wide for cold and hot glue and Latex application
- Nip roller presses up to 1100 mm wide with layboy table
- Pattern Glueing machines up to 1650 mm wide
- Press Sections
- Packaging Systems for folding cartons
